

Interpretive Medicine: Supporting Generalism in a Changing Primary Care World

By Joanne Reeve

Royal College of General Practitioners. Pamphlet. Book
Condition: new. BRAND NEW, Interpretive Medicine: Supporting
Generalism in a Changing Primary Care World, Joanne Reeve,
This occasional Paper reflects on the importance of personal
care and personal attributes needed to deliver medical care
and gives a theoretical account of why personal care is of
worth and needs protecting, the nature of the person that
general practice is seeking to support and the knowledge
needed to do so. The author proposes a model of interpretive
medicine, which is the critical, thoughtful, professional use of
an appropriate range of knowledge in the dynamic shared
exploration and interpretation of individual illness experience,
in order to support the creative capacity of individuals in
maintaining their daily lives. The author outlines the
exploratory, interpretive nature of the interaction that is the GP
consultation. The author proposes that the aim of general
practice should be to support patients in living their lives.
